

## RING SIZE TEMPLATE FOR PRINTING 1:1

### TEST BAR

Please check with tape measure

Please check printer settings, document must be printed 100% without scaling.

Please note that the test bar must measure exactly 5cm, otherwise the sizes will be incorrectly displayed.

### Comparison with existing ring

1. Place the ring on the circles and compare the circumference (circle should just be still visible).

and/or

### Cut out ring size template

1. Fold sheet exactly on dotted line.
2. Neatly cut out semicircles along the circular line.
3. Unfold sheet again.
4. Put your finger through the round cutout and read the size of the circle that fits best. The cutout must be tightly attached to the finger, it must be stretched a little above the knuckle.
